LASER WORKSHOP:

Laser Physics, Safety and Tissue Interaction
Sat May 16, 2026 - 8:00 AM–4:00 PM

Join **John E. Hoopman, CMLSO** from UT Southwestern Medical Center Dallas in a **one-day, didactic overview of laser and light-based physics**

This course provides the physician or non-physician staff member an academic forum to **learn the fundamental characteristics of lasers and light-based devices** and how to **apply those fundamentals** to common procedures, improve efficacy while decreasing the risk of complications

All fundamentals taught are **based on translational research and peer reviewed papers**, many co-authored by John himself (+62 total publications)
